Russell Says Truman Is 'Crucifying' South

Filibusters In Second Day Of Debate

Washington, March 1—(AP)—Southern legislators pumped bitter oratory into the two-day Senate filibuster today with cries that the Truman administration is attempting to "crucify" the South.

Senator Russell (D-Ga.), quarterback of the southern forces, injected that dramatic note into the lengthening debate over a proposal to curb the filibuster. . . the device of talking a bill to death.

The proposed rules change, backed by President Truman himself, would permit clamping a time limit on debate by a two-thirds vote of senators present on the Senate floor.

Russell declared that the anti-filibuster move was only the first of a series of "sectional bills" designed to "crucify" his section of the nation.

Russell's comment came in the form of an interruption as Senator Connally (D-Tex.), opening the second day of the Dixie bloc's fight, said the attempt to limit debate was "for political purposes and political classes."

Connally said it was being pushed to a showdown as an opening wedge for three controversial bills—anti-poll tax, anti-lynch and the "so-called FEPC" measure, designed to prevent racial discrimination in employment.

All of them, he shouted, are "un-constitutional."

Then the 71-year-old Texan demanded to know when the South was going to be permitted to rest in peace, without being subjected to what he termed constant agitation, aggravation and humiliation.

"The people of my state want the freedom of debate preserved," he said. "They want the truth to counteract cruel representations that often are foisted upon them."

Meanwhile, the filibuster blocked the Senate foreign relations committee from making a decision on the \$5,580,000,000 European recovery bill.

Under Senate rules, the committee had to cut short its study of the proposed second installment in Marshall plan funds when the Senate met at 11 a.m. (CST). Tomorrow it will meet at 9 a.m. (CST). Giving the committee two hours leeway before returning to the filibuster scene.

Other Senate committees were similarly stymied on important legislation. Under the rules, none can meet while the Senate is in session without the unanimous consent of the Senate. As part of their filibuster strategy, southerners have refused to agree to committee sessions.

Senator Connally vigorously defended the southerners' opposition to what he called "obnoxious and harmful legislation" under President Truman's proposed civil rights program.

Solemnly, he told his colleagues that the Senate is the only "remaining forum of free speech in the world. Removing his dark-rimmed glasses, his tan face flushing, he went on:

"I feel so strongly I must speak."

Connally's speech.

First he dealt with the proposed federal ban on payments of a poll tax—still required in some states—as a requisite for voting in a federal election.

"This is absolutely unconstitutional," he said. "Anybody who can read, knows that."

The Texan then read § section of the U. S. Constitution which he said gives each state the right to determine the qualifications of its voters.

"The last election did not change the Constitution," he roared. And he said that if the states are left alone, the poll tax would "vanish" without federal prompting.

Only seven states now have the poll tax, he said, although he had heard that some New England states, including New Hampshire, have something similar to a poll tax for local elections.

Fate Of 8 Lost Airmen Mystery

San Antonio, Tex., March 1—(AP)—The fate of eight airmen, including one of the famed Doolittle fliers, remained a mystery today.

They were occupants of a C-47 transport, more than 24 hours overdue on a flight from Hamilton Air Base, Calif. The plane was believed down in the Hill country of south-west Texas.

It was last reported over Wink, Tex., at 8:26 a.m. yesterday. It had taken off from Biggs Air Base, El Paso, a short time before, and was due in San Antonio at 10:06 a.m.

Wink is a third of the distance from El Paso to San Antonio.

Hamilton Field today released the names of four of the plane's passengers. One is Maj. Lucian N. Youngblood, 30, of Houston, Tex., one of the B-25 pilots who made the first bombing raid on Japan.

To Starve Out Russian Mission Refusing To Go

Frankfurt, Germany, Wednesday, March 2—(AP)—Eight soldiers of the Russian repatriation mission ignored the midnight deadline set by the U. S. army and remained in their billet.

All lights in the building were ablaze as the deadline passed. Members of the mission could be seen eating and talking.

There was no immediate attempt to eject them forcibly.

The Russians are headed by Col. Vasily I. Argoonov. They said they are awaiting Soviet orders from Berlin.

Gen. Lucius D. Clay, U. S. military commander, indicated his policy would be to drive them out by depriving them of food, water and telephone service.

Gen. Clay issued his order Feb. 16 for closing the mission March 1, saying the number of displaced persons who volunteered to return to Russia in the past year was negligible and that the accredited Soviet military mission could handle the work.

The Soviet government denounced the move last week as a violation of Yalta and Tehran agreements and demanded that the order be rescinded.

Gen. Clay, the U. S. military governor told newsmen yesterday:

"As long as they don't want to get out of the house, we are in no hurry about getting them out."

But he indicated the U. S. army would make it difficult for them.

He said the problem is now in the lap of Brig. Gen. Robinson E. Duff, Frankfurt military post commander.

"The Russians are no longer entitled to facilities here," Clay said, "and I feel confident that they will be denied such access."

Gen. Clay said that if he were Gen. Duff he probably would cut the telephone line to the mission, cut off the water and food supplies and prevent the Russians from "having access to facilities."

Free Medill, Weir Of Responsibility In Mine Disaster

Fairfield, Ill., March 1—(AP)—Indictments charging two former state officials with partial responsibility for the Centerville mine explosion in which 111 men died nearly two years ago were quashed today.

Freed of the charges were Robert M. Medill, former director of the Illinois Department of Mines and Minerals, and Robert Weir, his assistant at the time of the disaster.

The indictments, returned by a Washington county grand jury, accused them specifically of culpable omission of duty in failing to enforce the state mine safety code before the explosion. The charge is a misdemeanor.

Circuit Judge Charles T. Randolph, who dismissed the charges, described the indictments as technically incorrect and said: "If these men are guilty in connection with this terrible disaster, it seems the charge should be involuntary manslaughter, at least."

U. S. Spy Court Sentences Five Europeans To Jail

Munich, Germany, March 1—(AP)—Five Europeans, headed by a pole who said he worked for Poland's secret service, were convicted of espionage and sentenced to prison by a U. S. military commission today. The terms ranged from 12 to 30 years.

The stocky ringleader, Theodore Szendzielorz, 33, grinned when the sentences were read. He drew 30 years for spying on behalf of a "foreign power." No foreign power besides Poland was mentioned in the trial.

Little emotion was shown by the others:

Roman Knopp, 36, a German railway worker, 20 years.

Rudolf Badura, 31, a pole, 12 years.

George Koidodziez, 39, a German, 12 years.

Helmut Schoftock, 22, a German, 12 years.

The stocky ringleader, Theodore Szendzielorz, 33, grinned when the sentences were read. He drew 30 years for spying on behalf of a "foreign power." No foreign power besides Poland was mentioned in the trial.

Open Prosecution Testimony In Bulgarian Pastor Trial

Sofia, Bulgaria, March 1—(AP)—Prosecution testimony opened today in the spy trial of 15 Protestant ministers, amid indications more such trials are planned.

The last of the churchmen went to the witness stand in Sofia district court and tearfully confessed. All are accused of treason, spying for the United States and Britain and illegal dealings in foreign money.

Then the first of 53 witnesses for the Communist-led Bulgarian government were called.

Only one of the 15 ministers—Baptist, Pentecostal, Methodist and Congregational—deviated from a full confession. He was the Rev. Ladin Popov, 36, a Pentecostal pastor. He denied he had been a spy, but said in a quaking voice that he was guilty of illegal currency dealings. He said he had converted dollars obtained from the United States.

"There is only one road to travel and that is with comrade Georgi Dimitrov (Communist premier), Popov said.

The others, in the trial started Friday, admitted all charges.

They gave long public confessions, usually speedily, and sometimes with tears and sobs. The original confessions were obtained while the ministers were held prisoners for three months by the security police. The ministers testified they were treated well.

The prospect of further trials against anti-Communist clergymen was seen in the fact that testimony produced in this hearing has mentioned the names of numerous Protestant pastors and laymen who were not listed in the original indictment. The assumption was that this testimony made them also subject to arrest.

Russian Flier Flew Siberia, Landed In Japan—Army

Tokyo, March 1—(AP)—A Russian army flier fled Siberia and landed his soviet plane in Japan late last year, the U. S. Army revealed today.

The flier, Sgt. Vladimir Barashkov, 23, told newsmen today that Russian fliers "have the impression the Soviets have the atomic bomb."

He said he left Siberia to seek a haven in the United States.

Barashkov landed the Russian built C-47 type plane on Rishiri island, off Hokkaido, Nov. 10, 1948, but the army did not make his arrival public.

Barashkov talked with American correspondents for more than two hours. He said the election of President Truman and the defeat of Henry Wallace last year made a profound impression on the Russians.

Barashkov said like other Russians he had been led by Soviet propaganda to believe communism was advancing in the world until he heard of the American presidential election.

Stevenson Starts Plan To Separate Police, Politics

Springfield, March 1—(AP)—Gov. Stevenson today appointed two members of a merit system council which will direct the first phase of his program to remove state police from politics.

He named Professor Charles M. Kneier of the University of Illinois and Virgil W. Peterson, secretary of the Chicago crime commission. A third member will be selected later.

Stevenson told a news conference the council's first job will be to examine applicants here next Monday for the 100 existing vacancies on the 500-man force.

Later on, all present policemen will take examinations and those who fail to meet newly established standards will be replaced, Stevenson said.

5 Repudiate Guilty Pleas Made Before Hungarian Trial

Budapest, Hungary, March 1—(AP)—Five defendants today repudiated pre-trial confessions that they engaged in illegal money deals in a conspiracy with Josef Cardinal Mindszenty.

He identified the third victim as Mrs. Janet Fay and said she was slain Jan. 4.

FRENCH DANCER ILL

Judiciary Committee Urges Outlawing Of Reds In State

By Millicent Lane

Springfield, Ill., March 1—(AP)—Despite hisses from the gallery, the Illinois Senate Judiciary committee today urged passage of five bills designed to outlaw communism in the state.

The committee's action came at a closed session after a lengthy public hearing. During it, a delegation of 500 persons swarmed into the Senate chambers to oppose the legislation. The vote was not announced.

Members of the delegation, whose spokesman said they represented "liberal" organizations, filed the galleries, halls and some of the senators' chairs as the committee held its first hearing on the bills backed strongly by the American Legion.

The delegation missed Senator Roland V. Libonati (D-Chicago), one of the sponsors of the bills and a Judiciary committee member, when he spoke for them.

Republicans Ask Cut In Federal Excise Tax

Says Truman Plan May Give Strikers Relief

Washington, March 1—(AP)—Arthur J. Altmeyer, social security commissioner, told a congressional committee today payroll taxes, under President Truman's expanded social security program, ultimately may reach 10 percent—5 percent on employees pay and 5 percent on employers payroll.

Rep. Curtis (R-Neb.), questioning Altmeyer at the time, estimated a 10 percent rate would take about \$12,000,000,000 a year in taxes. Present security taxes yield \$3,200,000,000 a year.

Altmeyer also testified, in response to questions by members of the House Ways and Means committee, that:

1. "Nobody on earth could tell" what President Truman's aid-to-all-needy plan would cost, "if a depression of the 1929 magnitude came upon us." This aid comes out of the treasury general fund, and is not covered by special payroll taxes.

2. This aid-to-all-needy proposal, if approved, would permit relief payments to families on strike. Altmeyer said final determination on such payments would be made by the individual states, but he added: "when it comes to public assistance, I don't think any state would let the family of a striker starve."

The social security commissioner said an 8 1/2 to 10 percent payroll tax, divided between employees' pay and the employers' payrolls, would finance the president's long range social security program. This calls for expanded old age insurance coverage, boosted insurance benefits, expanded unemployment compensation, new disability insurance and a new national health insurance system.

Rep. Curtis told newsmen later that he believes a tax of around 20 percent, half each against employee and employer, bringing in about \$20,000,000,000 a year, would ultimately be necessary to finance all these programs.

People Go Wild At Biggest Mardi Gras In History

New Orleans, March 1—(AP)—The devil shook hands with a priest here today, assuring him there were "no hard feelings."

A plunger squatted on a car track and roasted hot dogs with a blowtorch.

A band of Congo warriors, led by a gorilla, chased half a dozen screaming Indian mads down the street.

It was Mardi Gras, the biggest Mardi Gras New Orleans has ever had, and a hundred thousands of buffoons were out cutting capers.

How many hundreds of thousands of other people were out watching them, nobody knows. City Public Relations Director Dave McGuire said it was the largest crowd ever in the streets here, and his statement seemed conservative.

A newspaperman, wandering through the crowd looking for "color," took 27 minutes to move one block. The three musketeers pushed him back into a pair of skeletons.

Boris Karloff stepped on his feet, a couple of clowns threw confetti into his eyes, and an angel tickled his ear with one of her wings.

March Wind, Snow Cause 23 Deaths In New England

By the Associated Press

March howled into the east in blustering style Tuesday causing at least 23 deaths.

New England received a heavy, traffic-paralyzing blow of snow that was accompanied by winds of up to 60 miles an hour at times.

Traffic in some sections was at a virtual standstill. Schools and many stores were closed. Some major roads and state highways were blocked by the sudden storm.

The deaths were attributed to overexertion in the cold and snow. But below normal temperatures were general throughout the country. Scattered snow and rain covered most sections of the midwest, the plains states, southwest, the mountain states, upper Great Lakes and valley regions.

U. OF I. TO OBSERVE 81ST ANNIVERSARY

Champaign, Ill., March 1—(AP)—The University of Illinois, which opened in 1868 with 50 students, will observe its 81st Anniversary tomorrow with an enrollment of 28,929.

President George D. Stoddard will lay a wreath on the grave of the University's first president, John Milton Gregory, who is buried on the campus.

The University has facilities valued at more than \$61,000,000. Some 200,000 students have attended.

Some cockleburrs shells germinate after the first year, and some do not sprout until the second year.

MISSISSIPPI FLOOD CONTROL
Several floods in recent years have convinced the engineers as well as local residents that the upper river will produce bigger and more destructive floods unless something is done to prevent it. The bill introduced last week by Representative Sid Simpson to build a seawall along the Quincy waterfront is in line with the general program, although it is not tied to the long-range construction plan which may require a decade or more. It was offered as a separate bill in order to speed construction.
The Quincy seawall plan is a part of the vast blueprint. Included is the heightening of levees in scores of drainage districts. The construction of vast flood reservoirs along the lowa rivers is a part of the plan. Taken together the numerous projects are expected to (1) provide temporary holding reservoirs for extremely heavy water run-off, and (2) give protection to cities and farms against the flood-waters that cannot be held back.
No plan of this kind can be an absolute guarantee, but the engineers believe they can safeguard lowlands in 99 out of each 100 years.
A few years ago, the federal government constructed an elaborate system of navigation dams in the Mississippi river. They were successful in the purpose for which they were built but the floods have been increasing in height and frequency since the canalization program's completion. Having built the dams on its own property, the government must assume responsibility for flood damage caused, in part, by the dams.

Boyle's Column
For An Old Alaska Hand New York Isn't So Hot

By GEORGE TUCKER
(For Ha' Boyle Who is on Vacation)
New York—Tom Carson knows Klondike history, several hundred funny stories and whisky.
He learned these the hard way, at first hand.
When he was younger, he landed a raft near Dawson (Yukon territory) and started digging.
"We wore beards to keep our faces from freezing. Eggs were two bucks apiece."
That was in 1899, a year after the Klondike was discovered.
Today, 50 years later, Tom Carson is back in New York—and sorry for it.
"I came east to visit my niece," he said. "She's a fine woman—but I couldn't never to have come."
He said his niece and her husband lived in a little town about 40 miles up the Hudson.
"They mean well," he went on, "but their idea of a big night is to turn on the radio, mix a pitcher of lemonade, and go to bed. I couldn't stand it."
"I slipped away without telling anybody where I was going. I came here, and found a wonderful bar, and spent four days there. I cashed all my travelers checks and wound up busted. Then I called Ida—that's my niece—and asked her to wire me some money. She said she wouldn't do it. She said I'd spend it all and they'd never see me until I was busted. But she's driving down tonight with her husband to pick me up. They'll be here between five-thirty and six."
For this reason, Carson said, he just had to have a small loan until they got here. "To get a meal, and tidy up," he said.
"If you'll let me have it," he went on, "you can have it back first thing in the morning. I'll put it in an envelope and slip it under this door, and you'll find it here."

New Klondike Kate
Carson, at 75, is a bird-like little man whose shirt hangs on him like blisters. His hands are apple flutters like a stricken dove. On and on he goes, like Tennessee's brook, until it drowns you in a wave of anecdotes, dates, names and places.
"I saw the fight that Rex Beach made famous in his novel 'The Spoilers'... I lost my gear on Chilkoote Pass... I know Klondike Kate..."
After reaching the Klondike, Carson dug gold until his hands blistered. While waiting for the miners to heat he visited the M & M saloon. There he met Jack London, Tex Rickard, Robert W. Service and so many other interesting people that he abandoned prospecting and drank his way through 50 years of the insolvent, warm in the memory of his celebrated friends.
Beach Was a Bar Slapper
"Rex Beach was a bar slapper," Carson recalled. "If he got an idea while standing at the bar he'd slap it so hard you could hear the bar crack. Then he would pour the idea into his typewriter and would be leaping and jumping. Sometimes he would come back and say, 'I had an idea. It didn't work. Let's have another drink.'"
"Jack London was a wonderful fellow, but he quit drinking and became respectable. Even after Jack left the country he used to money back to the boys, saying, 'I'm not a drinking man—but have one on me.'"
After the gold camps dried up and the big cities came, Tom Carson settled in Nome. The bars were good. The years passed. Then, one day, came that unaccountable decision to visit his niece.
"I know what you're thinking. You're wondering if Tom Carson came back, and slipped that envelope under the door."
Yes, he did.

Tips On Filling Out The 1040 Long-Form

(Editors' note: This is another in a series of articles explaining who must do what about his 1948 income tax return, for which the deadline is March 15.)

By James Marlow

Washington, Feb. 28—(AP)—Here's an example of filling out your 1948 income tax return on the 1040 long-form.

Jones sits down with his long-form, the instruction pamphlet which goes with it, and a piece of paper for his arithmetic.

His income was \$9,800, all in salary. His wife had none. They have two schoolboy sons. He's going to make a joint return with his wife.

Because, when a wife has no income, a joint return is cheaper than a return filed by a husband alone. So his two problems are deductions and exemptions. He tackles the deductions first.

A couple filing jointly — without explaining or itemizing a penny — can get a standard deduction of 10 per cent of their income up to a limit of \$1,000 in such a standard deduction.

Therefore, Jones' standard deduction — 10 per cent of his \$9,800 income — is \$980. Before taking that, he figures out his deductible ex-

by his boss for the \$1,400 withheld from his pay during the year.

Single Return More Expensive

If you doubt a single return for Jones would be more expensive than this joint return, you can figure it out for yourself on page 3. But first, keep these things in mind:

A married person filing separately doesn't get the "split" income benefit of a joint return.

And a married person filing separately gets a standard deduction of only \$500, not the "10 per cent up to a limit of \$1,000" that married people get on a joint return.

Since Jones' deductible expenses were \$160, he'd lose money taking the \$500 standard deduction on a separate return. He'd claim the \$160 but he'd have to itemize. Even so, the \$510 would be less than the standard \$980 deduction he could claim on a joint return.

In short, Jones tax, filing separately, would be \$1,343.76 instead of \$1,248.68 on a joint return. He'd lose \$295.08 on the deal.

Two Anniversaries Marked At Dinner

The forty-fourth wedding anniversary of Mr. and Mrs. Charles H. Lewis and the twelfth wedding anniversary of Mr. and Mrs. Robert H. Frost of Winchester were celebrated Sunday evening at a dinner given by Mr. and Mrs. Lloyd Burneister, 804 North Cary avenue.

An anniversary cake was an attractive centerpiece on the dining table, which was also decorated with sweetpeas. The dinner was followed by an informal social time. Family pictures were taken.

Others present were Elizabeth Lewis, Gary Lee Frost and Sherry Ann Frost.

Valve-in-Head - and Fireball too!

IT seems that valve-in-head engine design is becoming quite the thing, now that gasolines are stepping up in octane rating and higher compression ratios begin to be worth while.

Well, that's dandy as far as Buick is concerned.

For more than forty-five years, Buick engineers have been working with, developing and learning all about valve-in-head engine design.

So quite some time ago Buick applied a principle, possible only in valve-in-head design, which still remains a Buick exclusive.

It is Fireball design — and it's an interesting engineering story.

It comes from a specially shaped piston, designed to roll each fuel charge into a compact, whirling, ball-shaped mass. It goes a step beyond high-compression ratios, because it means better mixing of fuel — and so better burning.

Result: More good from each fuel charge. A touch more life, pep, ginger. More of that happy, satisfying feel of power and zip that give Buick its good name as a performer.

So remember, as more and more cars climb on the valve-in-

head bandwagon, that Buick is still calling the tune. Still ahead in knowledge and experience and development of a principle that has always been recognized for its greater basic efficiency.

With self-setting valve lifters adding new quiet and washing out tappet noise, it's plain that "Buick's the buy!" on engine design as in other ways.

Come satisfy yourself on that score — and get a firm order in either with or without a car to trade.

'Sermons In Stone'

Is a History of the World's Christianity
Alabama Monk's Miniature 'Religious City'

Brother Joseph Zoetli and his Temple of Jerusalem: In 30 years, he built a model city to preach his 'Sermons In Stone.'

By MONTE M. KATTERJOHN
NEA Special Correspondent

Cullman, Ala. —(NEA) —The history of the Christian religion, from the unfinished Tower of Babel to American cathedrals of the faith, will greet visitors to St. Bernard College this Easter.

Faithfully reproduced in scale model—some actually containing bits of material from the famous originals—are hundreds of the buildings that have marked the upward advance of Christianity throughout the world.

They are the labor of love of a 71-year-old monk, Brother Joseph Zoetli, who operates the Benedictine Abbey's power plant, teaches, and for 30 years has built his "religious city" along flower-bedecked paths that lead through a four-acre park to Ave Maria Grotto.

As a lad of 14 Brother Joseph came to this country from Bavaria, and in 1892 enrolled in the then new high school at St. Bernard Abbey that since has become a junior college.

Five years later he entered the monastery. Something over 30 years ago he got the idea he could teach religion through models of sacred buildings.

Most significant of his reproductions is not a building at all, but

Calvary, with its three crosses. There are, among other things, the Temple at Jerusalem, measuring 61 inches across its front; Monte Cassino monastery in Italy, mother house of the Order of St. Benedict, which was bombed to rubble in World War II; the Catacombs in Rome; the Hanging Gardens of Babylon; one of the seven wonders of the ancient world; the Alamo, where gallant Texans died to the last man resisting the Mexican General Santa Anna; the Mission Dolores, built by Franciscan friars as San Francisco was just coming into existence.

These models are set along paths lined with evergreen and rose bushes, against a backdrop of rock and forest-clad hillside. Each is built to scale in stone, concrete, tile, shell, beads. The beautiful Ave Maria Grotto, at which the paths center, features a stone figure of the Blessed Virgin.

The late Abbot Bernard Monges lived to see the first cluster of Brother Joseph's reproductions, "Little Jerusalem," on the school's recreation grounds. It inspired him to conceive the idea for the grotto, but he did not live to see Brother Joseph's fulfillment of his dream.

Local Sportsmen's Club Adopts Plans To Better Fishing

A seven-point program for 1949 was discussed Monday night at a meeting of the Jacksonville Sportsmen's club when it met at Almagat hall. Earl E. Spink, recently elected president, presided at the meeting.

Laborers, Hod Carriers Halt Work Until New Contract Is Obtained

Building operations in the Jacksonville community were reported to be at a virtual standstill Tuesday after the Common Laborers' and Hod Carriers' union failed to reach an agreement on a new contract with employing contractors. The old scale of the union was \$1.40 per hour.

Wilbur Freitag, business agent of the union, said several proposals for a new contract have been submitted to employers, none of which has been accepted.

An increase in the scale is reported to be asked by the union, but the exact terms of the proposal have not been announced.

The expiration of the contract between the union and contractors brought a halt to construction work on all of the larger building projects. It was said. Carpenters with materials at hand continued to work, but masonry and plastering work was halted because of the need for hod carriers.

The work stoppage came after a series of conferences between union representatives and contractors, who could not get together on terms. Construction work on numerous homes, as well as other buildings and repair jobs, was affected by the expiration of the contract.

The late President Roosevelt used to go to Warm Springs in Georgia. He was helped or would not have gone there twice a year.

Wonder Minerals

YEAR after year, people rush to mineral springs and spas to drink and bathe in their miraculously water. We have all heard of the wonderful springs of Lourdes, France, and famous Thonon in ancient Greece where, according to legend, Hercules, the god of eternal strength and youth, drank its waters and bathed to be forever young. GEO-MINERAL contains minerals you get at the world's best WARGA DRUGS, Jacksonville, Illinois.

"We have sold Geo-Mineral for the last six months and it has been one of the best selling drug items we have ever handled"—say Porter Bros., pharmacists of Concord, N. C. "Users report amazing results in many instances, and we personally believe Geo-Mineral is a good medicine for purposes as indicated, and recommend it to sufferers who have tried other medicines with little if any results. They may discover that Geo-Mineral is what they have probably been needing and looking for—we unhesitatingly recommend it."

Times Celebrates 73rd Anniversary At Chandlerville

Chandlerville—The Chandlerville Times, local weekly newspaper, marked its 73rd year of continuous publication with this week's issue.

The paper has earned a reputation of dependability, never having missed an issue in its many years of existence, despite various difficulties.

In 1942, when a raging flood swept the Illinois and Sangamon River valleys, and part of Chandlerville was inundated, the paper was printed in Virginia in order to make its regular Friday appearance.

Ora Shankland is the publisher and has edited the paper for the past 38 years. He is assisted by R. F. Harbison.

Selling In Grains Causes Price Drop Soybeans Decline

Chicago, March 1.—(P)—Selling in grains, regarded by brokers as profit cashing and liquidation, knocked prices down at the Board of Trade today.

Grains showed some nervousness from the start. Selling became general when traders heard that corn purchases on a to-arrive basis

amounted to more than 200,000 bushels, the largest in some time.

Brokers said the heavier supply, anticipated before warm weather sets in. The spot market quoted an easier trading basis, especially for the lower grades.

Wheat declined after the selling movement started, regardless of heavy government purchases through yesterday.

In the spot market traders said the basis for oats trading was about firm. Soybeans made some wide swings during the day and headed downward when corn and wheat broke.

Receipts were wheat 6 cars, corn 50, oats 4 and soybeans 3.

At the finish, some recovery from the day's low had been made and wheat was 13 to 2 cents lower than the previous finish, May \$2.17-18. Corn was unchanged to 1 lower, May \$1.34-35. Oats were 1 to 1 cent lower, May 67-1/2. Rye was 1 cent lower, May \$1.31. Soybeans were 1 to 1 1/2 lower, March \$2.35-1/2, and lard was 13 to 25 cents a cwt lower, March \$12.20.

New York Stock Market

New York, March 1.—(P)—A rising stock market soon faltered today but most issues managed to stay on the plus side.

Gains ran from fractions to around a point or more although there was a tendency to back down from the day's highs.

Turnover remained slow and on a par with recent slim sessions. Business was at the rate of about 800,000 shares for the full session.

Selected railway issues responded easily to only slack demand, along with oil, rubber and chemical stocks. Last week the rail group, as measured by the Associated Press index, dropped to a 1948-1949 low.

Issues higher most of the time included General Motors, Chrysler, Firestone, Goodrich, Montgomery Ward, Caterpillar Tractor, Nickel Plate, Illinois Central, Standard Oil (N.J.) and American Airlines.

Tending to hold back were U. S. Steel, Woolworth, Boeing, Northern Pacific and Consolidated Edison.

Bonds moved upward with stocks. U. S. government issues in over-the-counter dealings again displayed firmness.

Ezzard Charles Outpoints Maxim In 15-Round Go

Cincinnati, March 1.—(P)—Ezzard Charles outpointed Joey Maxim in a 15-round split decision fight here last night, but it is doubtful if he added anything to his prestige as the outstanding challenger for Joe Louis' heavyweight title.

The slender, hard punching Cincinnati negro had to come from behind to cop the nod of two of the three judges. Many of the fans yelled their disapproval of the decision.

Sucker For Left Jab

Charles, weighing 181 pounds—the heaviest he has ever scaled—showed two glaring weaknesses. He was a sucker for a left hook and he could not get away from Maxim's left jab.

Charles gambled on a win against the fancy stepping Clevelander, who weighed 184. He had little to gain, because after his knock-out victory over Joe Baksi in Madison Square Garden several months ago Louis, himself, had rated him as just about the foremost contender.

All he did gainfully, it seemed in the Cincinnati Garden press box, was to add to his bank account.

Some Give Win To Maxim

Some of the sports writers gave their unofficial decision to Maxim, who was always busy, jabbing, hooking and falling in while Charles carried the bout to him.

Maxim carried his attack through the sixth, seventh and eighth, then slowed down.

Charles, a great guy to keep trying, then began to catch up and in the last three rounds moved ahead.

"I shouldn't have coasted those last three rounds," Maxim said. "I coasted through the last three rounds on the advice of my handlers. I think I won. It was a helluva fight."

Charles, smiling broadly in his dressing room, called his rival "a real clever boy."

Louis Formally Resigns As World Champ; Asks To Promote Title Bout

Miami Beach, Fla., March 1.—(AP)—Joe Louis resigned as undefeated world heavyweight boxing champion today to become a fight promoter.

The Alabama-born negro who has held the heavyweight crown longer, and defended it more often, than any man in boxing history made his formal resignation by letter to the National Boxing Commission.

He asked for and received NBA permission to promote a match between Ezzard Charles and Jersey Joe Walcott in June for the NBA-recognized world's heavyweight title.

Louis' resignation was submitted to NBA Commissioner Abe J. Greene, of Paterson, N. J., visiting here, and Flamen D. Adee, NBA president, of Miami Beach.

A new fight promotion alliance with Arthur M. Wirtz, James D. Norris, owners of the Chicago stadium, and Louis shared equal ownership was formed. It is to be called the International Boxing club.

"I have already begun to work in my new capacity as director of box-

ing for the club," Louis wrote the NBA, "our organization has obtained the signatures of Ezzard Charles and Jersey Joe Walcott on agreements to engage in a 15-round heavyweight contest this June."

Both contenders, Louis said, have been recognized by the NBA and "other recognized and competent authorities as the top ranking contenders. Their ring records fully justify these rankings."

Both Charles and Walcott, Louis said, have agreed that the winner of the June fight shall meet either Lee Savold or Gus Lesnevich within 90 days and that the NBA-recognized champion will defend his title at least twice a year.

Louis' decision to quit the ring and go into business was his own.

"I'm glad to retire," he said, "it takes a great load off my mind. I could see that I couldn't fight any more and rather than lose the title in the ring, I decided to quit."

The Brown Bomber said his decision matured into a reality in the past 10 days.

Norris, one of the world's biggest grain operators, said he and his partner for some time had contemplated a partnership with Louis in the fight promotion game.

Although the new partnership owns the Chicago stadium, largest sports arena in the world, no decision has been made where the Walcott-Charles fight will be held.

"I think it would be more dignified to hold it outdoors," Norris said, "and Louis agrees with me."

Louis, who won the crown from James J. Braddock on June 22, 1937 in Chicago, said he had talked the whole proposal over with "Uncle Mike" Jacobs, aged and ailing promoter who handled all of Louis' 25 title defenses.

"Uncle Mike said he had no beef," Louis said, "if I did what I said I would do, stick with Mike as long as I was boxing. And I did it."

Augustana Prexy Clarifies 'Raid' On Girl's Dorm

Rock Island, Ill., March 1.—(AP)—Dr. Conrad Bergendoff, president of Augustana College, today issued a statement which he said clarified and corrected reports that 250 to 300 men students "invaded" a girls' dormitory on the campus last Thursday night.

The statement said:

"A considerable number did serenade the girls' dormitory and then enter the building. But they did not lock the householder in her room. Most of the girls were still up, no one was dragged from bed. Damage was negligible—two broken chairs, a broken window and a lamp.

"The girls evidently had some advance information—some of them opened the door for the boys.

"The administration is not inclined to minimize the affair, but is interested in fair play for all concerned. It's judgement is based on what actually happened, not rumors. Those involved have apologized."

Dairymen Seen In Dire Straits

Chicago, March 1.—(AP)—The nation's farm economic conditions, says the American Dairy Association's president, are the "worst since the depression days of the 30's."

"The situation facing dairymen today not only endangers the milk supply of the nation, but threatens the whole economic structure of America," said President Bryce S. Landt of Wisconsin Dells, Wis., last night.

"Farmers have been hit hard by the collapse of dairy and farm commodity prices," Landt told a meeting of delegates representing farm and industry dairymen from 40 states. "The cost of milk production has remained high while the farmer's income is dropping."

With the regular season over members of the conference will be concentrating on three regionals where six teams will seek added honors. It is doubted if any of the six teams will carry off any championship since all three regionals are really tough. Three teams, Auburn, Virden, and the Farmersville district champion Girard Redbirds, are all entered at Virden while Waverly goes to Jacksonville and both Nokomis and Morrisville are in Taylorville. In the following lines I will give an indication as to what the conference can expect in each of the three regionals.

VIRIDEN: Here Girard has an inside chance, along with Northwestern, to break up Springfield's hopes for an all-city between Springfield and Cathedral. Both the Redbirds (22-4) and Northwestern have impressive records but unfortunately they haven't run up against the same opposition. It will take a big upset for either Auburn or Virden to even win a game.

JACKSONVILLE: Waverly (10-0), has a mighty fine ball club but the Scotties would have to stop the number one (Chambersburg), three (Virginia), and two (I.S.D.) teams in that order. Waverly ranks number five.

TAYLORVILLE: Both Morrisville (14-7) and Nokomis (11-7) are entered, they both have a chance to win their initial game but then run into Pana and Taylorville, so that's enough said.

In the final standings of the conference, Girard was the undefeated champion with Waverly edging Morrisville out of the number two spot.

Donny Peters of Waverly is the number one scorer in the MSM conference with a cool 18 point average for 9 games. His little teammate, Delbert Mitchell, was second with a 15.3 average. Bill Graham of St. James was in third with a 14.6 average.

Waverly showed their fans that they never know what to expect when the Scotties are in action; on Friday night they lost to a mediocre Morrisville team, whom they had previously beaten, 54-53 only to come back Saturday to stop a good Athens club at Athens 63-55.

St. Petersburg, Fla., March 1.—(AP)—Southpaw Tommy Byrne arrived at the New York Yankees' spring training base tonight and agreed to terms offered by General Manager George Weiss.

The signing of Byrne leaves only two Yanks out of the fold, Pitcher Vic Raschi and Infielder Bobby Brown.

Phoenix, Ariz., March 1.—(AP)—After a three-hour workout today, 7 Manager Leo Durocher of the New York Giants expressed admiration for the manner in which Bill Jennings, shortstop, and Bob Hofman, second baseman, handled themselves during the workout.

Hofman, who played for Sioux City last year, is the property of the Minneapolis club. Jennings belongs to the Boston Braves.

Although it was the first day out for the squad, they indulged in a peppy infield workout after about two hours of batting practice. Three innings were used in shifts.

Reds Say U.S. Army Being Trained To 'Crush' Civilians

Moscow, March 1.—(AP)—The United States Army is being trained for use against the American civilian population, an article in the Soviet newspaper Red Star claimed today.

The writer, V. Minav, said in an editorial titled "What are the purposes of the 'loyalty investigations' in the armed forces of the United States?"

"American reactionary circles are so zealously conducting these investigations in order to make the army an obedient weapon for crushing the popular masses by force of arms."

Long Beach, Calif., March 1.—(AP)—Quadruplets with pink bellies and blue backs, each about the size of a kitchen match, slithered today around a zoo cage—half a world away from home.

She gave birth to the quartet last Thursday in what Wesley Dickinson, director of the Grace Wyllie zoo, this is the first time a captive of the species has had snakelets.

Rocket Rally Falls Short In Last Frame; JHS Wins Easily

Two Jacksonville teams won the right to advance to the semi-final of the local regional basketball tournament last night, but the other, Routt, was eliminated from further competition in a thrilling 43 to 41 battle with Spike Wilson's Tiger five from the westend. Bob Kraushaar's Jacksonville high school outfit took a handy 51 to 31 nightcap tilt from the New Berlin Pretzel five.

Games Tonight

This evening will see the two remaining first-round contests played off. Virginia meets Ashland in the 7:15 p.m. bout, and Waverly will tangle with Chambersburg in the 8:45 g.m. Semi-final will get underway Thursday night.

Paul Stroud's Rocket five, who had been trimmed once before by the Tigers this year, got the jump on the ISD quint and forged ahead into a 6 to 2 lead. Paul Kennedy, Rocket forward, his first two shots he took to give the east-siders this early advantage. The Stroudmen drove back a Tiger rally late in the initial period, and were still ahead 10-8 after the first eight minutes of play.

With Routt holding a 13-10 advantage early in the second canto, Billy Yates, Tiger guard, was in the right place at the right time for two consecutive shots and a free throw to push his outfit into front for the first time 15-13. Kwiatk and Hood each added a bucket for the Tiger five while Sonny Lonergan was the only Rocket cager to tally after this point, and it was west 19, east 15 at the halftime break.

ISD Takes Big Lead

Tiger forward, Cecil Hood, Carlstedt drove into high gear immediately after the intermission and racked up 13 points between this and the stanza to give ISD a decided 32 to 21 edge over Routt going into the last quarter.

The Rockets came back strong after the final quarter got underway. Little Joe Murphy brought the crowd to their feet with two amazingly long one-handed shots from the left side of the court while R. J. Spreen added another to bring the count up to 52-27 with 6 minutes to play. Again, Hood, Cecil and Carlstedt managed to stage off the Rocket drive, and maintain a 3 to 4 point margin through the first part of the fourth quarter.

Paul Saner, big Routt pivot man, was thumbed from the tussle with 3 minutes to play, and stock in the Rockets dropped a few points. However, they stayed in the ball game and when Joe Murphy left the bout on fouls with a minute and a half of play left, were lagging on the short end of a 40 to 37 count. Paul Kennedy and Sonny Lonergan tossed in two more buckets for Routt, but Leo Cecil and Alta Hood matched them from the field and free-throw line to keep the west end gang out from 43 to 41 at the final horn.

The New Berlin outfit, whom the Crimson's had tagged 60 to 35 in a scheduled game last week, served early notice that they weren't to be counted out of the second game last night against the local high school quintet when they slipped into a 3-1 lead immediately after the opening tip-off, and stayed up with the bigger Jacksonville bunch the remainder of the first period. The Kraushaars held only an 11-9 edge after the initial eight minutes of play.

Every Crimson cager hit from the field at least once, and most of them counted two or three times in the second canto, and they pulled slowly away. Jacksonville's size enabled them to shoot at will under their own basket, and sometimes they popped five or six shots at the hoop before finally chalking up a marker.

This was their biggest frame, however, and they led 32 to 13 at the 10-minute rest period.

Kraushaar Plays Reserves

The J.H.S. regulars coasted through the third quarter and built their lead to 20 points over New Berlin.

With the score reading 39 to 19 going into the fourth period, Kraushaar inserted a complete new team and these reserve Crimson cagers maintained the 20 point advantage to the letter as they ended the bout on the big end of a 51 to 31 score.

Sisters To Sing At Bluffs Church

Bluffs — The Rohrer Sisters of Springfield will present a concert of sacred music Sunday, March 6, at the Bluffs Methodist church. The program will begin at 7:30 p.m.

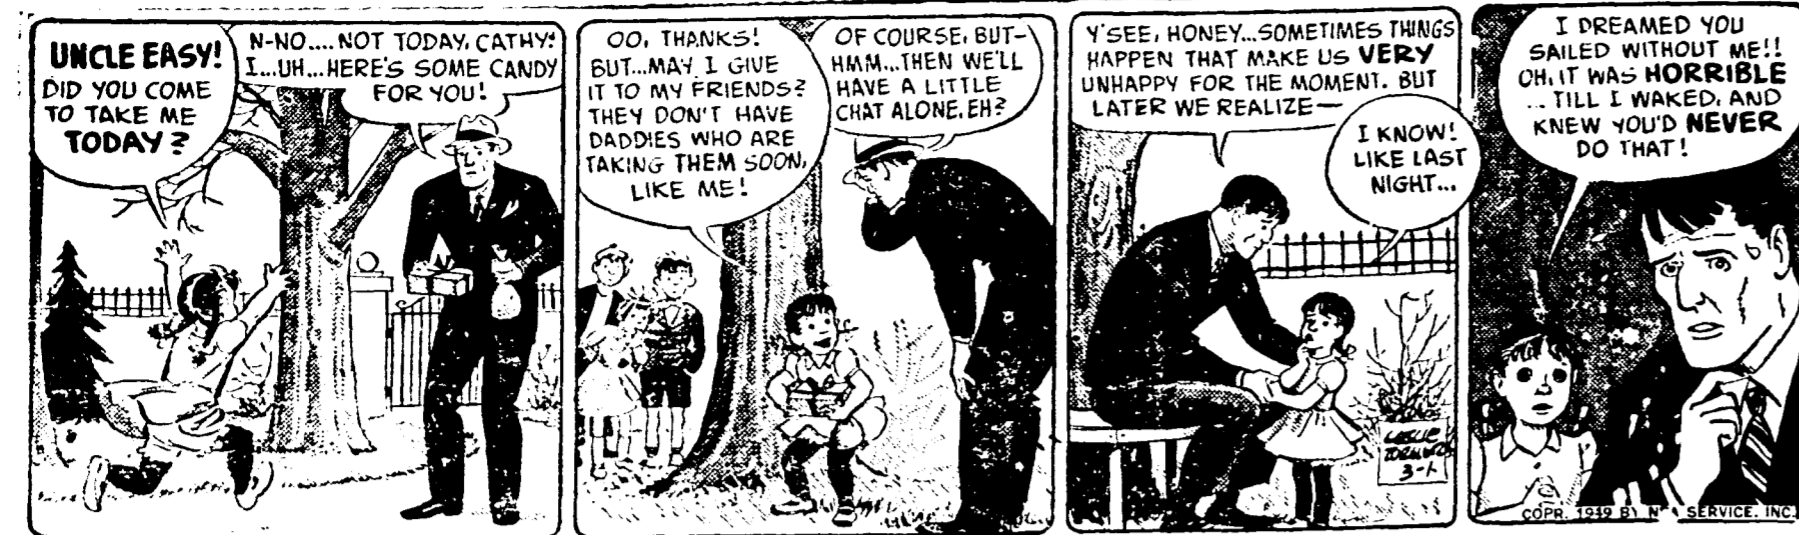

This quartet is well known in this section. They presented a concert at Central Christian church in Jacksonville last Sunday night.

The four girls, Genevieve, Rosaloe, Esther and Helen, began studying voice at an early age and made an extended tour through the western states. They also studied under Mario Varchi, now with the Metropolitan Opera company; Howard Groth of Springfield and E. Carl Lundgren, director of the Illinois Wesleyan Junior College of Music.

Paper Calls Red Police Thieves

Berlin—P—This is most likely the only city in the world where a newspaper daily publishes a list of names of policemen and accuses them of thievery.

It's part of the non-stop cold war between Communism and the west in this divided metropolis.

It stems out of the Russian-provoked division of Berlin's police department into two rival forces. The Communist-controlled force controls the Russian sector and a non-Communist force services the three western-occupied sectors of the city.

When the Russians tightened their blockade of western Berlin to include traffic controls at sector borders and on trains and subways, they delegated most of these duties to the German Communist "people's police" of their sector. Attempting to plug blockade loopholes, these police took to confiscating food packets from passengers in trains and autos and seizing truck freight cargoes bound for western Berlin which did not bear a Russian consignment stamp.

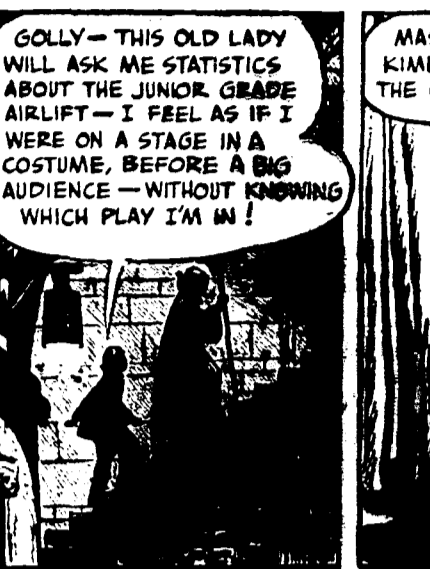

The American-licensed "Tagesspiegel" (Daily Mirror) and other anti-Communist papers called upon the people to resist these police seizures and otherwise oppose measures of the Communist "rump" government of the Russian Sector. "Give us the names of any people's policeman who confiscates your belongings and we'll publish the name of the thief," the "Tagesspiegel" told its readers. So you can pick up a "Tagesspiegel" any day and read in prominent type that: "Policemen Schmidt and Schultz are stealing packages at the Stettiner subway station," and "Policemen Frick & Prack are stealing goods from passengers on the surface line trains."

THE STORY: John Henry and Sin Conover, vacationing at a swank resort, are deeply entangled in a mystery involving an elusive "Queen." They have been trapped at a gambling ranch operated by Mr. Barselou where Johnny and Sin pretend they don't know what the mystery is about. Then Barselou reveals the identity of the "Queen"—a Spanish treasure ship called "La Reina"—the Queen—which in 1744 sailed by mistake up the Colorado River at flood stage and was left high and dry as the waters receded. Barselou is searching for the Queen and he believes that Johnny and Sin know how to find it. "From here on in," he says, "you help."

ing all his cards over the board. "He thought he'd play it smart," Odell muttered and his mouth contracted bleakly.

"Anglin had wired to a Mr. and Mrs. Jones in San Diego telling them that he'd found the Queen. What exactly Anglin had in his mind, I don't know—perhaps he intended to force my price up. Or maybe he intended to collect from two people instead of one." Barselou's blunt nails punched into his palms. "However, Mr. and Mrs. Conover—or Jones—I will not play parlor games."

Sin protested faintly, "But we're not the..."

"We tried to get to Anglin before he saw you. We couldn't. So we tried to bluff you out. That didn't work either. Then—" he looked at Odell. "Anglin got himself shot."

John Henry said quickly and desperately, "You know we didn't kill him, Barselou. You were right behind me. He was shot in the back and fell into my arms."

"I can't remember, Conover." "If you think we killed Anglin, then turn us over to the police—" Barselou bared his teeth in what was meant to be a grin. "You don't get the point, Conover. I don't care who you are or what you've done. All I want from you is the other half of the puzzle. Anglin had only one thing that was worth a damn—and that was the route I need to find the Queen."

After a long silence, John Henry spoke. He said carefully, "I'm not saying we have the route, Barselou. But if we have—and hand it over to you—what next? The last guy that had the Queen information for you got killed at your door."

Barselou and Odell exchanged glances. The big man put a mask of friendliness over his granite features. "My lifelong policy in a rough business has been to avoid bloodshed. Give me the information, Conover, and your troubles are over. As soon as I've verified the dope, you're as free as birds."

John Henry looked at his wife, tensely upright in her chair.

"I know you won't go to the police," Barselou went on smoothly, "because if you did I'd have to tell Lieutenant Lay that there's a handprint in blood by the door of Cottage 15, which you occupied last night. Gagner saw it this morning. We think it's Anglin's blood. The police would be glad to test it for us."

Sin's eyes were big and hopeful and her dark-red tresses swayed back and forth across her shoulders slightly. "Okay," said John Henry.

"Now you're talking sense, Conover."

"Let me talk to my wife alone for a minute or two and I'll give you the route."

"You'll have to do your talking right here in this room," Barselou demurred firmly. "You don't get out of my sight."

John Henry rose and Sin followed him over to the chuck-a-luck tables along the side of the room. Odell had his hand in his coat pocket again. Sin whispered, "Johnny, what are we going to do?"

"Can you remember that combination, honey?"

"I guess so. You want me to tell them?"

John Henry shook his head fiercely. "Not on your life. Just do as I say." He rasped the top sheet off a long tally pad on the next table. Then he went back to Barselou. "Pencil," Conover said. The other man silently produced one.

John Henry took the equipment back to the corner where Sin was absently turning the wire dice cage. The tumbling cubes awoke minute rattling echoes in the still casino. "Okay," he muttered. "Start talking. Softly."

Using as his theme, "What's Going On In Retailing," the speaker discussed current trends in merchandising. He also reviewed legislative problems now confronting merchants.

Retailers should take a more personal interest in legislation, he declared. "Legislators want you to help them by becoming acquainted with law-making procedure. They especially desire that you become with the many proposed bills so that you may intelligently aid the assembly."

Mr. Barker discussed in detail many of the bills now being considered in Washington and Jacksonville.

The merchants adopted a holiday closing schedule and advanced plans for a group of special events to be promoted during the coming year.

Approximately 100 retailers attended the dinner. Francis Pieper presided in the absence of Fred Hopper, chairman of the local council.

Police Test Finds Few Trucks Guilty Of Excess Cargo

Jerseyville—State police terminated a truck weighing campaign in the Jerseyville vicinity Saturday evening which had been conducted through the week. A large number of trucks were checked during that time, for the weighing went on both night and day with three shifts of police taking their turn.

Complaints were filed against 29 different drivers during the entire period of weighing, which indicated that about one per cent of the vehicles were carrying overloads. Up to noon Monday 19 of the operators had entered pleas of guilty and fines ranging from 10 dollars and costs to 50 dollars had been assessed.

One trucker had an overload of 3,500 pounds on a cargo of bananas. The laws gives police the right to order the overload be removed before the vehicle can proceed. It was necessary to remove the surplus load and store it in St. Louis, since there were no storage facilities available in Jerseyville for this type of fruit.

Another trucker from Eagle Lake, Iowa, was enroute to Davenport, Iowa, with a cargo of Florida grape fruit and oranges. He was more than 4,000 pounds overweight and had to employ another truck to take his additional cargo on to Davenport.

A third trucker enroute from Thompsonville, Kentucky, to a point in Iowa with a load of dressed chickens was halted when his overweight exceeded three thousand pounds. He found temporary storage space for his excess cargo at the Ringhausen Cold Storage plant on South State street and after paying his fine continued on to his original destination.

MacMurray Students Hear St. Louis Pastor

The Rev. James W. Clarke, D. D., pastor of the First Presbyterian Church of St. Louis, was guest speaker at the MacMurray college chapel service Tuesday morning at Grace church. Dr. Clarke, a Canadian by birth, served with a Canadian regiment in World War I and later was active in work with church youth groups in that country. His Sunday morning services are regularly broadcast from St. Louis, and he was the first minister to broadcast an entire church service by television.

Announcing as his topic "The Principle of Progress," Dr. Clarke said: "In America we have the most vociferous worshippers of progress, but for many years we did not understand what constituted it. We confused it with our own time of culture, with inventions, things, size. Since the last war we have begun to realize that we were sliding backwards instead of progressing. We have lost the great values: home life, society, true culture, health, faith, morale and the sense of security."

"But we have gained a truer concept of progress. It is locked up with human personality and spiritual values, with truth, with devotion, and especially with sacrifice. Sacrifice is the principal of progress as it is of Christianity, and it is the glory of man that he can rise above the law of self-preservation which governs the beasts and sacrifice himself."

"These are the people who have contributed to progress: scientists, willing to expose their bodies that the experiment may be true; explorers, accepting extremes of privation and danger that a new land may be discovered; social reformers who carried upon themselves the burdens of the poor and distressed; patriot-soldiers, who willingly suffered the horrors of war, mutilation, and death for the intangible cause of freedom; and Christians, who sacrifice themselves for the greatest cause of all—the Kingdom of God."
